

Park and Parkwall Primary Federation Remote Education Policy

**Working together to empower children to become
aspirational, global citizens**

This version dated	Summary of changes	Next review date
March 2026	New policy	March 2027

Policy Statement

At Park and Parkwall we recognise that face-to-face education is the most effective way for children to learn and develop socially and emotionally. Remote education is therefore only used where attendance at school is not possible.

This policy outlines how remote education will be delivered in line with expectations from the Department for Education (DfE). The aim is to ensure that pupils continue to access high-quality learning during periods when they cannot attend school.

Aims

Ensure continuity of education when pupils cannot attend school.

- Provide high-quality learning aligned with the school curriculum.
- Maintain contact between pupils and teachers.
- Support pupils' wellbeing and engagement with learning.
- Ensure equitable access to education for all pupils.

Circumstances Where Remote Education May Be Used

Remote education may be provided in the following circumstances:

- School closure or restrictions on attendance (for example due to severe weather or public health guidance).
- Individual pupils who are unable to attend school temporarily due to illness, injury or recovery from medical procedures, where they are well enough to engage with learning.
- Other exceptional circumstances agreed by the Headteacher.

Remote education will not normally be provided for short absences.

Curriculum and Learning

Remote education will aim to follow the same curriculum that pupils would receive in school wherever possible.

One day closure learning may follow a standardized template:

- Reading/phonics
- Mathematics
- Writing
- Wider curriculum & Wellbeing
- Physical activity

For extended school closures, learning may include:

- English (reading, writing and phonics)
- Mathematics
- Foundation subjects such as science, history, geography, art and PSHE
- Physical activity
- Wellbeing activity

The amount of work provided will reflect government guidance:

- Reception: up to 2 hours per day
- Key Stage 1: around 3 hours per day
- Key Stage 2: around 4 hours per day

Delivery of Remote Education

Remote education may be delivered through a combination of:

- Online platforms used by the school
- Recorded lessons or teacher explanations
- Learning tasks and activities set by teachers
- Independent learning opportunities
- Printed learning packs where appropriate

Feedback and Assessment

Teachers will provide feedback on pupils' work where possible and appropriate.

Feedback may include:

- Written comments
- Verbal feedback during online sessions
- Whole-class feedback
- Responses through the school's online learning platforms

Teachers will monitor engagement and progress and may contact families if pupils are not engaging with remote learning.

Supporting Pupils with SEND

The school recognises that some pupils, including those with Special Educational Needs and Disabilities (SEND), may require additional support to access remote learning.

Teachers will:

- Adapt learning activities where necessary
- Provide appropriate learning tasks
- Work with the SENDCo where additional support is required.

Access to Technology

The school recognises that not all families have access to digital devices or reliable internet connections.

Where this is the case, the school will consider alternative arrangements such as:

- Printed learning materials
- Alternative communication with families
- Advice and support for accessing online platforms.

Safeguarding and Online Safety

Safeguarding remains a priority during remote learning.

Staff will remain alert to the safeguarding needs of all children while remote learning takes place. They will remain professionally curious and vigilant during all online interactions. Pupils are expected to use online platforms responsibly and follow the school's behaviour expectations.

Roles and Responsibilities

Headteacher

- Overall responsibility for the implementation of this policy.
- Professional communication with external agencies with regards to the safety of children.

Teachers

- Plan and provide appropriate remote learning with learners' spiritual, moral, cultural, mental and physical development in mind.
- Provide feedback and support to pupils.
- Regular contact with pupils and families.

Parents and Carers

- Support pupils in accessing remote learning where possible.
- Encourage engagement with learning tasks.

Pupils

- Engage with remote learning activities and complete tasks set by teachers.
